**1. Call to Order and Declaration of Quorum****2. Land Recognition Statement**

We begin this meeting by acknowledging the land on which we gather is the traditional territory of the Haudenosaunee and Anishinaabe peoples, many of whom continue to live and work here today. This territory is covered by the Upper Canada Treaties and is within the land protected by the Dish With One Spoon Wampum agreement. Today this gathering place is home to many First Nations, Metis, and Inuit peoples and acknowledging reminds us that our great standard of living is directly related to the resources and friendship of Indigenous people.

## **6. Regular Business**

### **6.1. Terms of Reference**

Staff provided an overview of the Terms of Reference (TOR), which were approved by Council in January 2023. The TOR provides a purpose and mandate for the Committee which can be amended by the Committee if there is desire to do so.

The Committee discussed some of the key items they would like to focus on which including:

- invasive species identification, information and best practices
- endangered species protection/mitigation with agricultural practices
- greater focus on climate change and issues around import and exporting goods (specifically to the US)

The Committee felt that the current mandate is broad enough that they are able to focus on any number of issues that have been identified.

### **6.2 Dark Sky By-law**

Staff provided a brief overview of the proposed Dark Sky By-law, which was deferred by the Committee until 2024 for their review and input. It was noted that in Niagara, municipalities typically handle lighting for commercial uses through site plan control and that lighting for agricultural purposes is generally exempt from this requirement.

The Committee discussed the By-law including new technologies that virtually eliminate the use of white light, curtains and also various growing techniques (i.e. lettuce grows better under blue light, which does not emit

as much light pollution as a standard white light). This item will be brought back to the Committee at a subsequent date, Councillor Ker indicated that he will provide more information and an update at this time.

### **6.3 Project Status – Official Plan Update**

Staff have been preparing the first draft of the Official Plan, policy sections of interest to the Committee include: Section 4: NES/Climate Change and Section 10: Agriculture/Rural policies. Staff indicated that there will be a series of upcoming public meetings that will be open to everyone and the Town will provide multiple options to provide input (engaging pelham etc). Further, the Plan will be reviewed by agencies, Town Staff, Region of Niagara, NPCA, NEC and Town Advisory Committees (Seniors, Climate Change, Active Transportation and Agricultural Advisory Committees)

### **6.4 Future Topics**

- East Fenwick development and water/stormwater impacts of development;
- Oakhaven (west side of Maple Street) – water issues;
- Municipal drain maintenance plans;
- Welland River floodplain area;
- Farr Road development;
- Updated NPCA mapping of the floodplain for Drapers Creek and Coyle Creek;
- Billing structure of drain maintenance;
- Understanding the function of a road side ditch;
- Updating the municipal drain plans, and putting together a maintenance plan for these ditches;
- Solar and wind regulations (climate change);
- Educating the public on what farmers do; and
- New technologies that are coming to farming and how can the municipality adapt and create policy that doesn't limit ability of farmers to embrace new ways of doing things.

## **7. Next Meeting**
